

# K375

HIGH-PERFORMANCE, IN-EAR HEADPHONES WITH IN-LINE MICROPHONE AND REMOTE CONTROL FOR iOS® DEVICES

**NEVER STOP LISTENING.**

AKG® K375 in-ear headphones keep you listening to your favorite music all day with a combination of high-performance sound and incredible comfort. For audio perfection, you get the kind of studio-quality sound that has made AKG products the favorite of professional musicians for decades. Aluminum housings extend bass response and reduce unwanted resonances. Comfort is emphasized with three different sizes of soft, malleable silicone sleeves that will fit snugly into ears of every shape. Finally, an in-line microphone enables you to use AKG K375 headphones while making a phone call, giving you yet another reason never to take them off.

## FORM

- Comfortable fit
- Available in three colors
- Closed-back design

## FUNCTION

- True AKG sound performance
- Frequency range: 12Hz to 24kHz
- In-line microphone and remote for iOS® devices

# KEY FEATURES

**AKG**  
by HARMAN

## K375

So much sound.

### FAMOUS AKG® SOUND QUALITY

For 65 years, AKG Acoustics has been the leader in creating studio sound in headphones. We hold over 1,400 patents for our groundbreaking products; and in 2010, we were awarded a GRAMMY® Award for technical achievement.

### CLOSED-BACK DESIGN

AKG K375 in-ear headphones keep music in and noise out. Their closed-back design helps impede outside noise from entering your ears while also preventing the sounds that you're hearing from leaking out for the outside world to hear.

### ALUMINUM HOUSINGS

The housings on the AKG K375 headphones are made of aluminum, which provides superior acoustic dampening, extends bass response and reduces the resonances that can compromise sound quality. Aluminum gives the headphones an elegant finishing touch and helps keep them lightweight and comfortable.

### IN-LINE MICROPHONE

AKG K375 in-ear headphones have an in-line microphone so that you can make calls that are every bit as crisp and noise-free as the music you listen to on your smartphone. A three-button remote lets you control the play-back functions from your Apple device.

### SILICONE SLEEVES IN THREE SIZES

A thoroughly inspiring listening experience begins and ends with comfort. AKG K375 in-ear headphones come with soft, smooth silicone sleeves in three different sizes so that they will fit into ears of all sizes comfortably and snugly from the beginning of a playlist to the end.

### CHOICE OF TWO COLORS

Your music has style, so it makes sense that your headphones should too. With AKG K375 in-ear headphones, you can choose models in black or silver.

### CARRYING POUCH

Nothing slows down the listening process like having to undo a twisted Gordian knot of headphone cord. AKG K375 in-ear headphones come with a carrying pouch so that you can store them safely and snugly without their ever becoming an unruly ball of tangles.

# SPECIFICATIONS
